

Ministry Focus

To be a part of this we must be willing to live on the bleeding edge of transformational change created by sacrifice, uncommon dedication and driven by God's agape love. We must press with our prayers and actions of ministry until:

- The powers of Satan are driven back by the dominion power we have been given as sons of God.
- The doors of evangelism and miracles are blown wide open and the book of Acts power flows unrestricted outside the walls of our churches.
- Multitudes of those hopelessly bound in prisons of sickness, sin and abuse are miraculously delivered, healed and saved.

God is searching for innovators that will advance His Kingdom, like Steve Jobs and Bill Gates of my generation, whose uncommon dedication and leading-edge innovation pushed the frontiers of technology and dramatically changed the entire world forever.

The central theme of this ministry and published books is reflected in the first recorded words of Jesus: **"I Must Be About My Father's Business."** Some of the subjects addressed include the following:

- **Relationship with God** (upward focus)
- **Transformation of the Inner Man / Spiritual Growth** (inward focus)
- **Dominion in the Harvest Field and Battlefield** (outward focus)
- **Divine Love** (God's perfect, unconditional **agape** love)
- **Humility and Unity** (required for another Pentecost)
- **Balanced and Effective Focused Prayer**
- **The Complete Man** (body, soul and spirit)
- **Winning Souls Using Our Dual Nature** (son of God, son of man)
- **Urgency of the Father's Business** (managing our priorities and activities consistent with our knowledge of the times)
- **Spiritual Growth** (Becoming a Book of Acts Christian)
- **Church Growth Vision and Planning** (harvest driven mission, vision, goals, values, strategies, measurement, organization structures and processes)
- **Compassion and Care Ministry** (attracting, winning, retaining and making disciples)
